— COMPANY PROFILE —

企业简介

Shandong Sishui Deyi Industry and Trade Co., Ltd.

18+

production
experience

20+

Exports to more
than 20 countries

5000T

yearly output

200+

containers

DEYI paper established in July 2006. After more than ten years of development, it has strong technical and perfect product reserves, forming the concept of serving customers. Customer first, quality first. At present, we have 2 coating production lines with an annual output of 5,000 tons. The company also produces and processes cash register paper and multifunctional office paper. About 200 containers are exported every year, and the products include roll carbon-free paper, carbon-free cash register paper, thermal cash register paper, etc.

Mission Statement

Respect

Respect our employees, customers, partners, and the communities we serve.

Innovation

Continuously explore new technologies and methods to enhance production efficiency and product quality.

Quality

Uphold the highest standards to ensure the excellence of every sheet of paper we produce.

Sustainability

Commit to using eco-friendly materials and processes to minimize our environmental footprint.

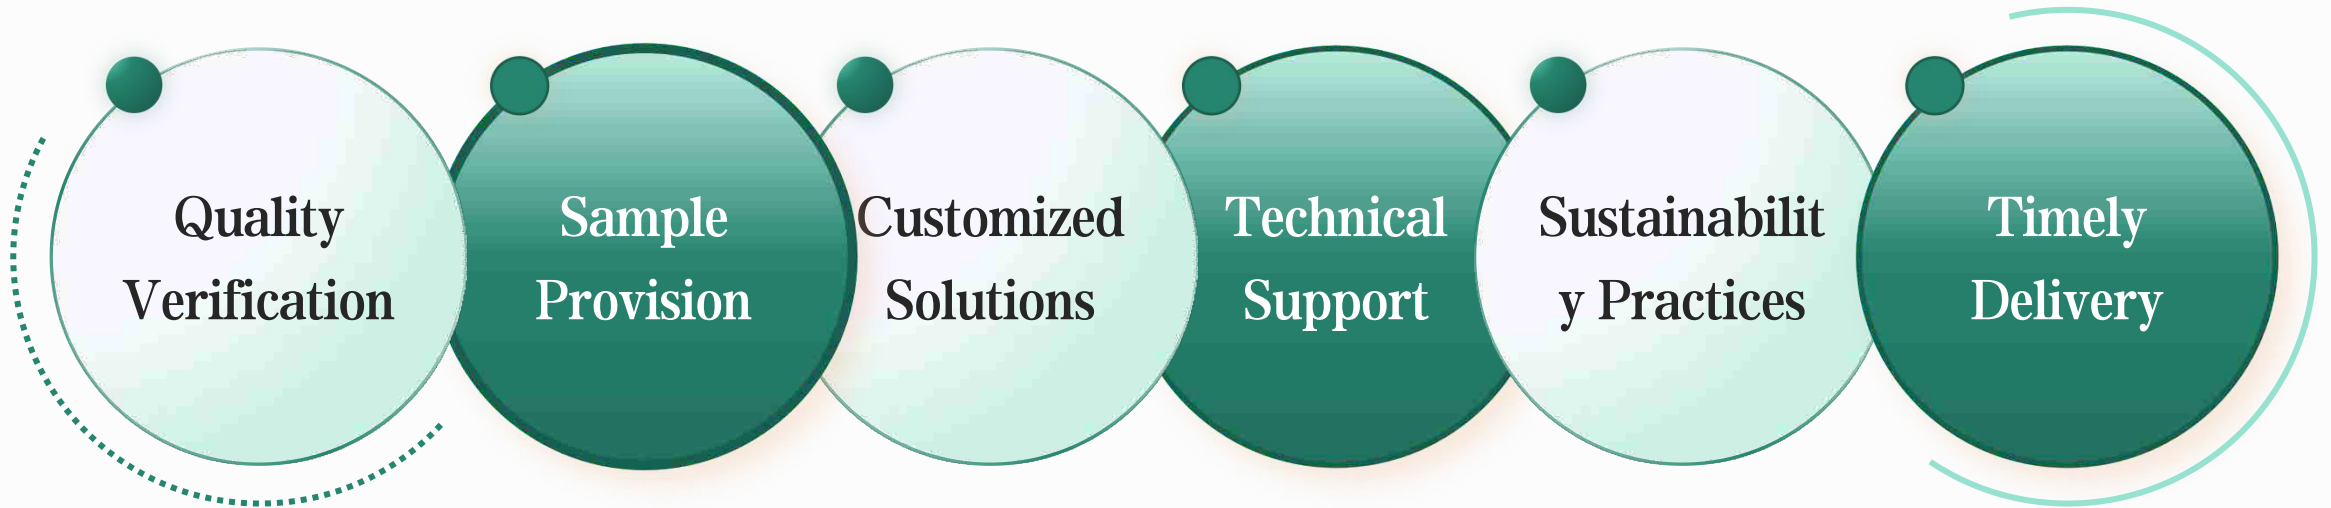

Integrity

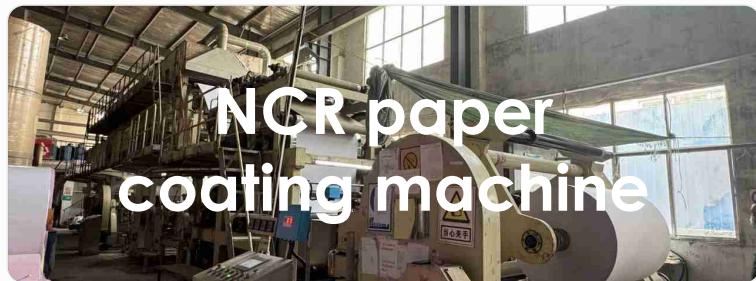

Maintain honesty and transparency in all our business operations.

— our service —

We are pleased to offer complimentary samples to demonstrate the superior quality of our paper and chemical products.

At Deyi Paper, we are committed to ensuring the highest quality and customer satisfaction with our products. Our comprehensive service offerings include:

9. Courier and Postal Services
10. Laboratories and Testing Centers
11. Parking Lots and Toll Booths
12. Events and Conferences
13. Inventory Management

Durability

While thermal paper is known for being temporary in nature, our products offer better longevity and resistance to fading compared to standard thermal paper.

High Print Quality

Patterns printed on thermal paper are clear, vivid, and have high color saturation, providing excellent visual effects.

Instant Printing

Thermal paper allows for immediate printing without the need for ink or toner, providing a fast and efficient printing solution.
